Instructions for Installing the new DocuMatch Printer Driver

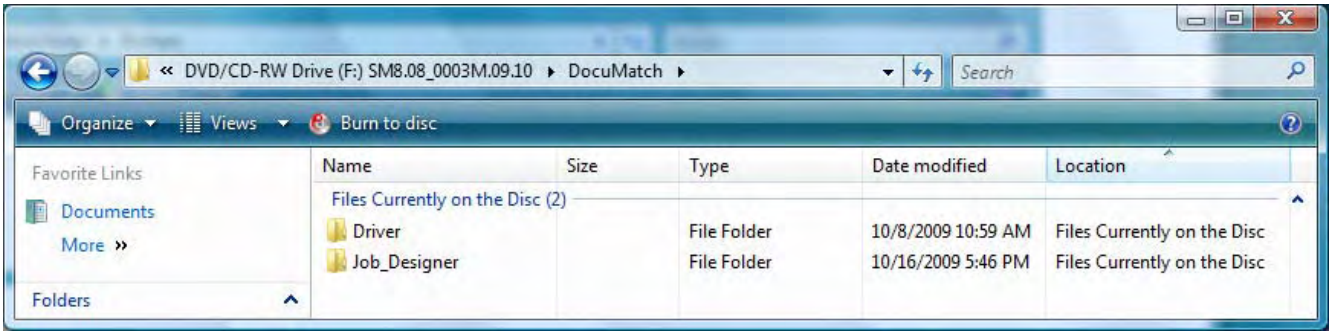

IMPORTANT !

These instructions only apply when installing on systems that require the functionality of the new DocuMatch printer driver **and** do not already include a previous version of the driver. If an earlier version of the driver exists on the target system, please refer to one of the 'upgrading' documents in this folder for instructions.

Previous versions of the DocuMatch printer driver were not supported under Windows Vista, so there is no upgrade path. And although this document has been written for Vista, the instructions can apply to new installations on Windows 7, Vista or XP.

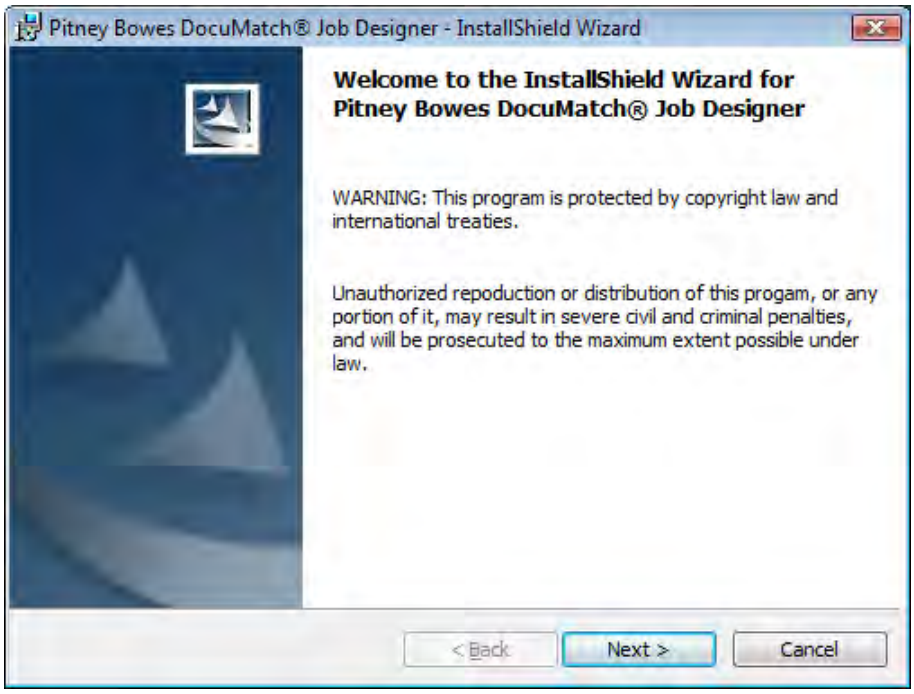

Installing on a Windows Vista System

1. Insert the installation CD or DVD into the CD/DVD drive.
2. Launch Windows Explorer.
3. Navigate to the *DocuMatch**DocuMatch with IMBC* folder on the CD/DVD drive.

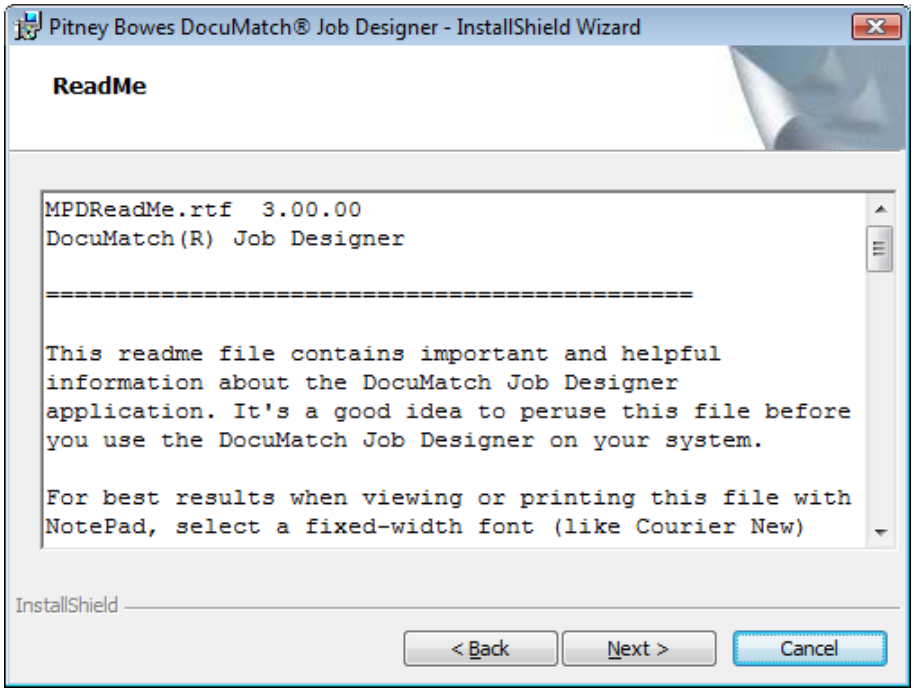

To Install the DocuMatch Job Designer …

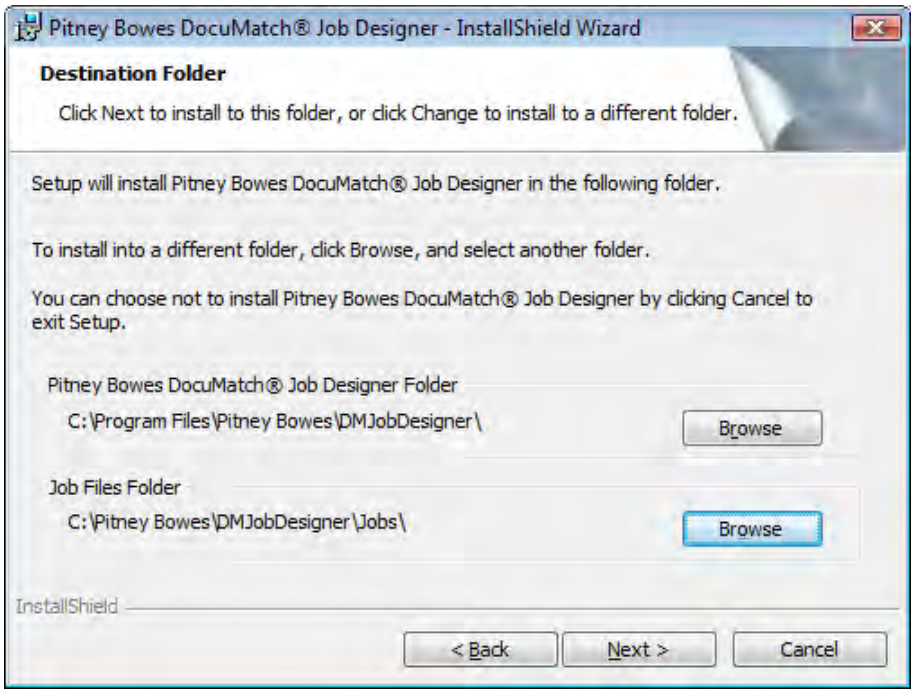

4. Open the *Job_Designer* folder and double-click **Setup.EXE**.
5. Click **Next** on the *Welcome* screen.

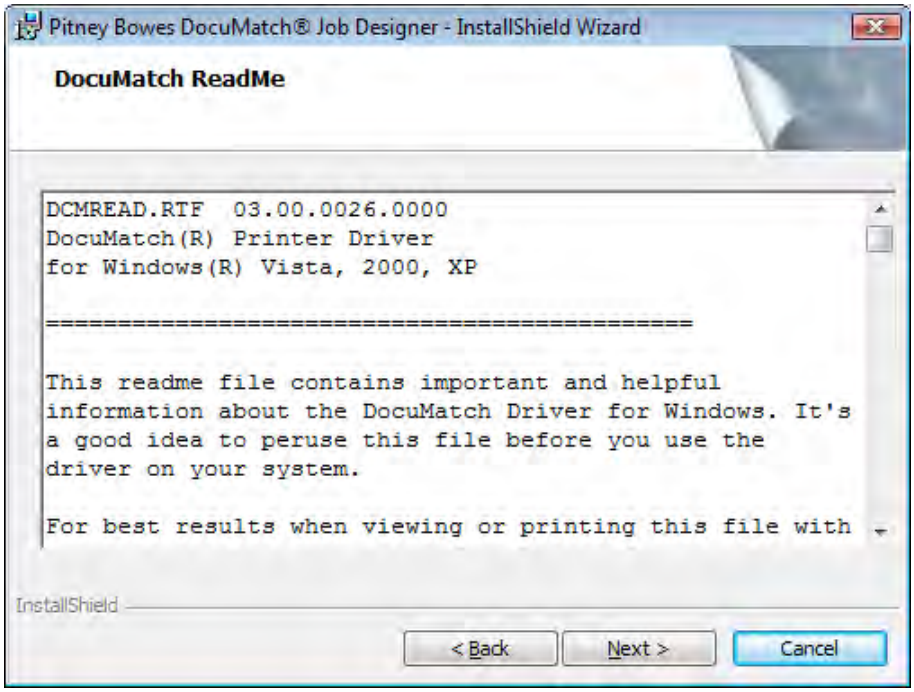

6. Click **Next** on the *DocuMatch Job Designer ReadMe* screen.

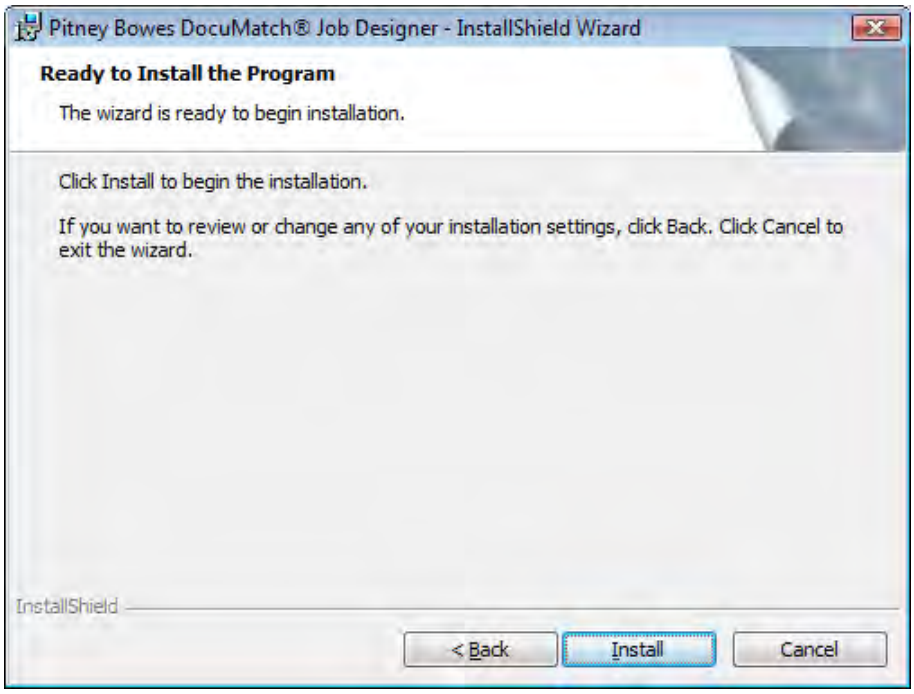

7. Click **Next** on the *Destination Folder* screen.

8. Click **Next** on the *DocuMatch Printer Driver ReadMe* screen.

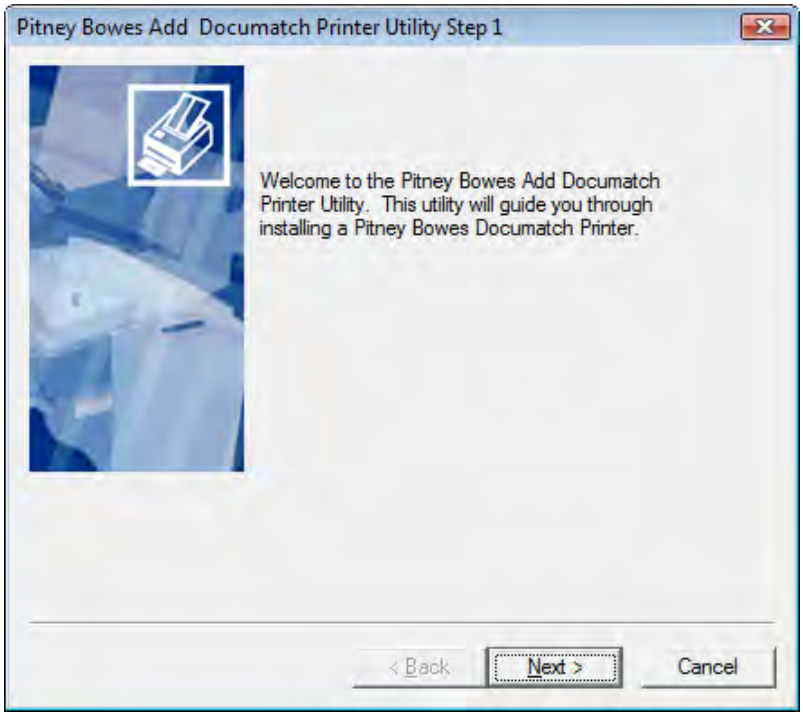

9. Click **Install** on the *Ready to Install the Program* screen.

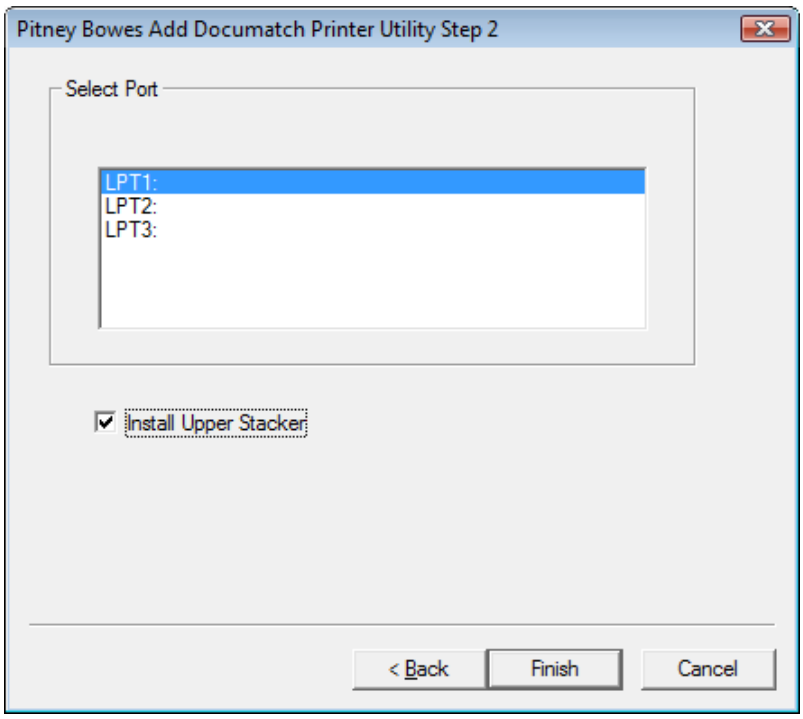

10. Click **Finish** on the *InstallShield Wizard Completed* screen.

To Install the DocuMatch Printer Driver …

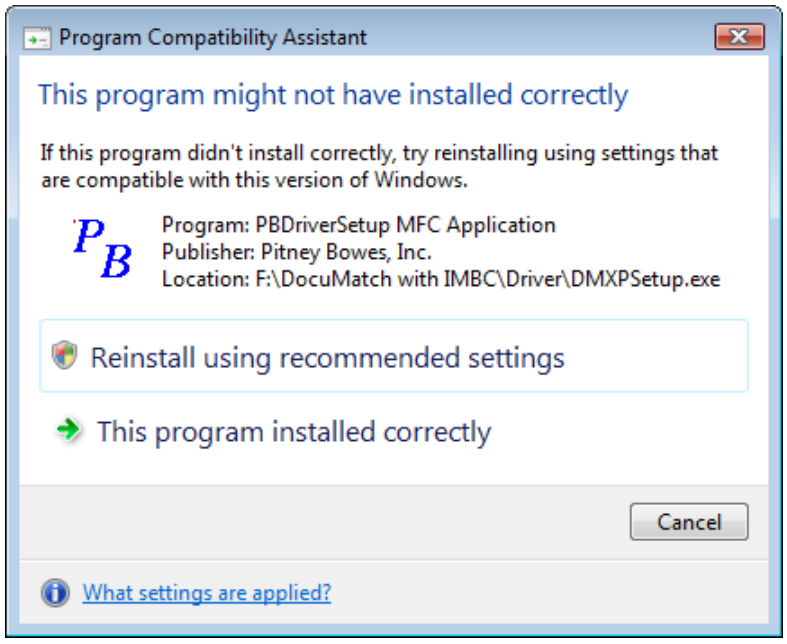

11. Open the *Driver* folder and double-click **DMXPSetup.EXE**.
12. Click **Next** on the *Welcome (Step 1)* screen.

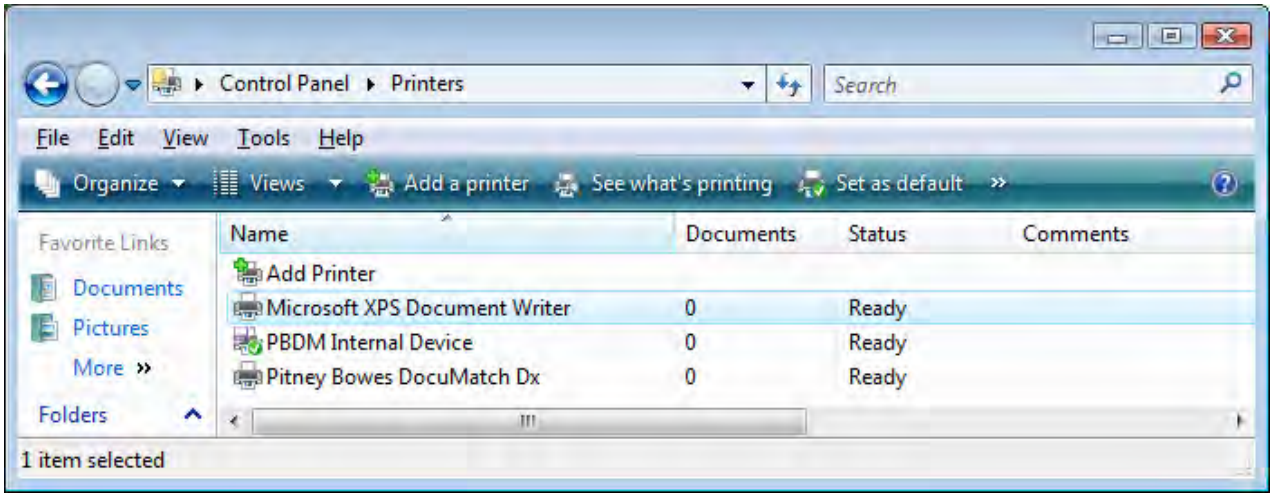

13. Select the applicable port from the *Select Port (Step 2)* screen.
14. Check the *Install Upper Stacker* checkbox, if desired.
15. Click **Finish**.

16. Click **This program installed correctly** on the *Program Compatibility Assistant* screen.

17. The *Printers* window is refreshed. Right-click in title bar and select ***Close*** to dismiss dialog
